

## The Ultimate “If You Like Janet Evanovich” Website

### Form to Take With You to the Library (or Bookstore)

This form lists each of the 49 authors that are “top recommendations,” as well as the first book of each series they’ve written (and for the few authors who do not write series, a recommended book). Since the list is sorted alphabetically by author name, I have also provided the number of recommendations, in case you want to focus on most-recommended authors first. I’ve also provided my opinion on the author, just in case that matters, and then there’s a blank column for you to write notes on library availability, or whatever.
